

New Test Announcement

Hepatitis C Virus Antibody reflex testing update

Effective 11/6/14

Mayo Medical Laboratory has updated the testing algorithm for Hepatitis C Antibody testing. Hepatitis C Antibody samples that have an s/co ratio of 1.0 or greater will be reflexed to Hepatitis C Virus PCR Quantitative.

Previously, Hepatitis C Antibody samples that had an s/co ratio of 1.0 to 10.0 were reflexed for Hepatitis C Virus PCR Quantitation.

If you have questions, please contact Kristin Baer, M.D. (218)249-5751, Chemistry Medical Director or Amber LaMourea, MT (ASCP) (218) 249-5024, Immunology Technical Specialist.

St. Luke's Laboratory Services has a Web page which contains New Test Announcements.
