

New Test Announcement

Changes to Pap Test Online Ordering Questionnaire

Effective October 9, 2013 two changes will occur in the Pap Test Online Ordering Questionnaire:

1. Pap Type: "E" for "Endocervical Pap" will no longer be an option. Please select "C" for "Cervical Pap" or in cases where the patient no longer has a cervix select "V" for "Vaginal Pap."
2. Under the HPV TESTING prompt, HPV TYPING will be replaced with HPV COTESTING. This change is made to alleviate confusion between HPVHR Testing and HPV 16/18 Typing.

It is our goal to make the online ordering process simpler and clearer for our practitioners. As this is an ongoing process, we appreciate your patience in this endeavor.

If you have any questions, please contact Sarah J. Lundeen, M.D, Director of Cytopathology at (218) 249-5208, Jennifer Viergutz, MT (ASCP) Laboratory Services Coordinator at (218) 249-5724 or Romine R. Deming, CT (ASCP) Technical Specialist of Cytopathology at (218) 249-5315.
