

New Collection Device

Rovers® Cervex-Brush® Combi

St. Luke's Cytology Department is pleased to now offer the Hologic Rovers® Cervex-Brush® Combi as another collection device option for use with the ThinPrep® Pap Test. The Rovers device combines brush and broom technology and is designed for improved endocervical cell sampling.

Samples of this device are available upon request.

If you have questions or to request a sample, please contact St. Luke's Cytology Department, 218-249-5315.
